

### When Police arrive:

- Remain calm and follow instructions
- Show them your hands but don't have anything in them
- Avoid quick movements toward the officers
- The first officers are there to find the suspect
- If you can help them locate the suspect do so but avoid asking questions

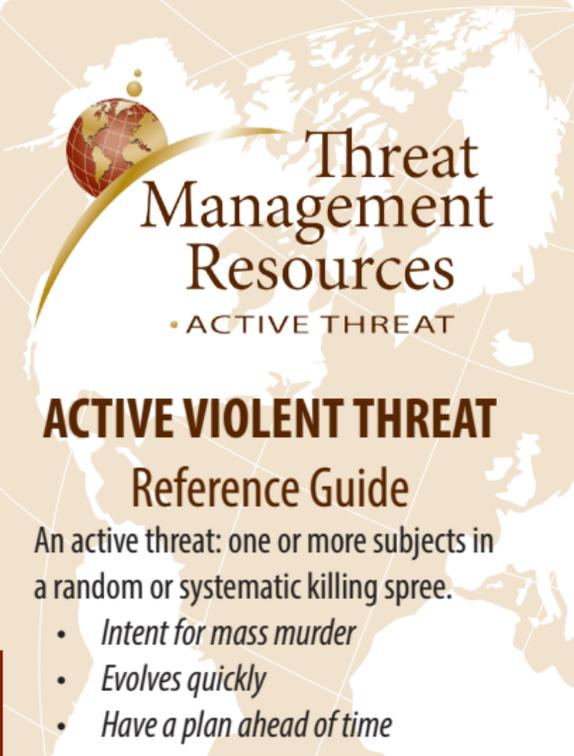

### Information to provide to 911 operators:

- Location of the active shooter
- Number of shooters
- Physical description of shooters
- Number and type of weapons shooter has
- Number of potential victims at location

For questions or additional assistance contact:  
Your local FBI Office.

# ACTIVE VIOLENT THREAT

Have a plan

Think about your environment

Keep thinking and be flexible

You have three options:

1

**RUN**

- If you can get out do so
- Run with a purpose
- Figure out first what is going on
- Run—possibly to a safe room you have selected
- Leave your belongings (move quickly)
- Help others if possible but don't delay if they refuse
- Keep your hands visible

2

**HIDE**

- Hide and barricade
- Safe room be able to lock quickly, have a phone, second exit
- Silence your cell phone (including vibrate mode) and remain quiet

**FIGHT**

3

If Running & Hiding doesn't work:

- Have a plan
- Act with as much physical aggression as possible.
- Improvise: what tools are available to you?
- Get others involved—There is strength in numbers

**WIN**

- Hear Something—Say Something
- Learn more about Threat Assessment
- Think of safety for your environment
- You have more power than you think
- If you are ever faced with this situation we hope you remember you have the tools to survive.
