

# Social Media and Threat Management

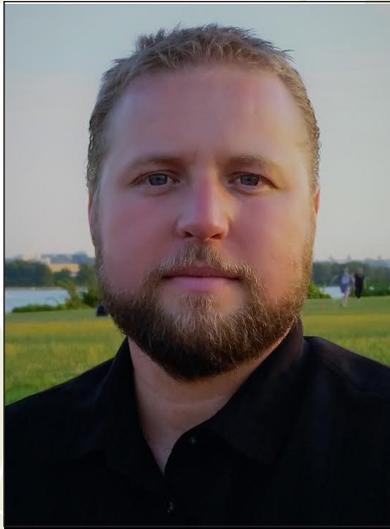

Thursday, October 5, 2017, 9:00 a.m.–4:30 p.m.

Chemeketa Center for Business & Industry

626 High St. NE · Room 106 · Salem, OR

Registration \$145 · Call: 503.399.8179 · or <https://www.research.net/r/SocialMediaTAT2017>

8 CEUs · ATAP Members: \$95 · Lunch Included

**Chris Adamczyk**  
**Principal/Owner,**  
**Elendil Technologies, LLC, Mesa, Arizona**

Chris Adamczyk is a 16-year law enforcement veteran. Since 2006, Chris has focused on the discipline of counter terrorism, threat assessments, and open Internet source intelligence. As a law enforcement officer Chris created a threat matrix and assessment process for persons of interest, events, and large venues.

***Who should attend:* threat assessment/management practitioners, security, law enforcement, suicide prevention, and disaster response.**

This workshop will provide information on social media monitoring, data mining tools, and online research techniques for practitioners. Includes best practices for obtaining information online while protecting anonymity and adhering to the code of ethics and legalities. This course also includes how to locate, extract, analyze, and react to social media data.

All participants should attend with a laptop or hybrid laptop/tablet (similar to a Surface). Those with a stand-alone wi-fi device are encouraged to bring them.

*Threat Management Resources is dedicated to the prevention of, reaction to, and recovery from targeted violence. We are committed to promoting best practices on threat management for our communities.*

# Social Media and Threat Management

Thursday, October 5, 2017, 9:00 a.m.–4:30 p.m.

Chemeketa Center for Business & Industry  
626 High St. NE · Room 106 · Salem, OR

**Training team: Chris Adamczyk and Nano Douglass**

**Chris Adamczyk**  
Principal/Owner,  
Elendil Technologies, LLC, Mesa, AZ

Chris Adamczyk is a 16-year law enforcement veteran. Since 2006, Chris has focused on the discipline of counter terrorism, threat assessments, and open Internet source intelligence. As a law

enforcement officer Chris created a threat matrix and assessment process for persons of interest, events, and large venues. In 2013, he combined his threat assessment knowledge with his skill in Internet open source research, and became the state's Subject Matter Expert in the discovery, extraction, and analysis of open source information. His skill set has been used to investigate terrorism, sex-trafficking, gang violence, and geo-political strife. He provided realtime social media support for Super Bowl XLIX, The 2015 NFL Pro-Bowl, and dozens of other high profile events in the US, Canada, and Europe. Chris speaks at multiple law enforcement conferences each year and as a consultant, Chris has worked with private security and technology firms. Chris is an AZPOST certified instructor and a permanent instructor for the Arizona State Terrorism Liaison Officer Program.

**Nano Douglass**  
Community Safety Manager,  
Reed College, Portland, OR

Nano Douglass has been the Community Safety Manager for Reed College since August, 2013. Nano started in the security industry after graduating from the United Kingdom Sailing Academy. He found a niche specializing in anti-piracy, working predominately in the Mediterranean for four years as a Skipper. Nano worked for the Yakima Police Department in Washington as a Corrections Officer before taking his current position at Reed College. He is a member of the Emergency Management and Threat Assessment Team at Reed College. He regularly assists with investigation, particularly as it pertains to online issues.
